

12-011

**STATE PROCUREMENT OFFICE  
EMERGENCY PROCUREMENT**

12 MAY 18 P1:36

STATE PROCUREMENT OFFICE  
STATE OF HAWAII

TO: Chief Procurement Officer

FROM: Transportation/Airports/Kauai District  
Name of Requesting Department

Pursuant to HRS § 103D-307 and HAR chapter 3-122, Subchapter 10, the Department requests approval for the following:

1. Date or period of Emergency: <u>4/10/12</u>	2. After-the-Fact: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
------------------------------------------------	----------------------------------------------------------------------------------------

3. Describe in detail the emergency situation that created a threat to life, public health, welfare or safety.

The obstruction light at Carter's Point was severely damaged during our last thunder storm. A lightning strike hit the lightning rod and melted the protective covering and several boards inside the housing unit that contains the computer and batteries. The light illuminates the mountain that is 799 ft high and about 2 thousand feet from the extended centerline of runway 35 (the major landing runway at Lihue Airport). During night operations and bad weather conditions, pilots must keep this obstruction light to their left side at all times or risk a very serious accident. If a pilot clips their left wing into this rugged cliff they will never make land and end up in the harbor, in approximately 4,000 ft of water. A plane carrying mail crashed into the ocean because the light was out of service and the pilot did not have a reference point to tell him he was too low and far from the runway.

4. Vendor/Contractor/Service Provider Name: <u>Rasco Electrical Supplies</u> <u>Supply Company, Ltd</u> <u>attk 5-25-12</u>	5. Amount of Request: \$ 9000 estimate
-----------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------

6. Describe in detail the emergency goods, services, or construction and explain why it is necessary.

The vendor will replace internal electronic components, lightning rod, bulb and batteries for the obstruction light. The repairs are essential to getting the light back in operation. The light keeps pilots from crashing during night operations and bad weather at the Lihue Airport. This light is an essential requirement to keep Lihue Airport fully certified and compliant with FAA Part 139 and more important FAA Part 77 Marking and Lighting Obstructions.

7. State the reason(s) the vendor/contractor/service provider was selected. Explain what competition, as is practicable, was conducted.

There were two vendors who could repair the obstruction light. Quotes were solicited from both vendors. The decision was made to go with the higher bid because the lowest bidder was not compliant on Hawaii Compliance Express and there was not enough time to let the lowest bidder get compliant. Parts for the repair had to be ordered from the mainland.

8. Identify the primary individual(s) who is knowledgeable about this request, who will conduct and manage this process, and has 1) appropriate written delegated procurement authority; 2) completed mandatory training; and 3) who SPO may contact for follow up inquiry, if any.

(Type over "example" and delete cells not used.)

Name of Department Personnel	Division/Agency	Phone Number	E-mail Address
Ms. Marcia H Shimokawa <i>mhs</i>	DOT AIR-K (BSS)	808-274-3807	marcia.shimokawa@hawaii.gov
Mr Timothy A. Skinner <i>(u)</i>	DOT AIR-K (ASST ADM)	808 274-3809	tim.skinner@hawaii.gov

**All requirements/approvals and internal controls for this expenditure is the responsibility of the department.  
I certify that the information provided is to the best of my knowledge, true and correct.**
